

**Amendments to the drawing:**

The attached sheet of drawing adds Figs. 2A, 2B and 2C. This sheet is an additional sheet of drawing and does not replace any sheet of drawing, but rather is in addition to the sheet of drawing filed with the application that includes Fig. 1.

Attachment: Replacement Sheet (additional sheet of drawing)

### REMARKS/ARGUMENT

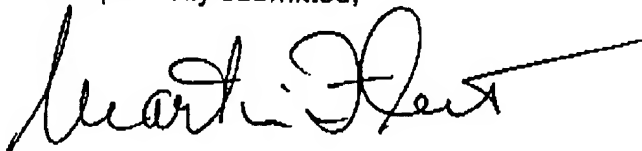

In response to the Office Action, a new sheet of drawing has been added to the application, the new sheet containing Figs. 2A, 2B and 2C showing, respectively, a side of the bag with an oval window (Fig. 2A), a square window (Fig. 2B) and a circular window (Fig. 2C). No new matter is added by this sheet of drawing, as the material forming the basis for this new sheet is found in original claim 2. The specification has been duly amended to change paragraph [00027] of the **BRIEF DESCRIPTION OF THE DRAWING**, and to add to paragraph [00036] a description of the figures on the new sheet of drawing. Again, no new matter has been added. The foregoing complies completely with and cures the objections to the drawing raised in the Office Action.

Original claims 1 to 4 have been duly considered in view of the Office Action, and these claims have been cancelled in favour of new claims 5 to 9. Claim 5 is like original claim 1, but corrected to remove the objectionable 112 matter raised in the action. The narrower range for the limitation regarding specific weight has been removed from claim 5 and put into new dependent claim 6. The remaining claims 7 to 9, like their predecessors, are dependent on claim 5. As noted in the Office action, the claims corrected with respect to Section 112 would be allowable.

In light of the foregoing remarks, this application should be in condition for allowance, and early passage of this case to issue is respectfully requested. If there are any questions regarding this amendment or the application in general, a telephone call to the undersigned would be appreciated since this should expedite the prosecution of the application for all concerned.

It is respectfully requested that, if necessary to effect a timely response, this paper be considered as a Petition for an Extension of Time, time sufficient, to effect a timely response, and shortages in this or other fees, be charged, or any overpayment in fees be credited, to the Deposit Account of the undersigned, Account No. 500601 (Docket no. 739-X03-021)

Respectfully submitted,
